

HOME ACCESSORIES / CLASSIC COLLECTION / LIGHTING

## NEWTON

Based on an instrument of astronomy, the Newton collection fosters thoughts of voyage and discovery. Emulating a treasured vintage collectible, polished glass rods stretch out between two magnifying glass ends, diffusing the light for a gentle luminous glow. The frame is available in a range of metallic finishes to suit any interior, and the sconce can be mounted either vertically or horizontally. Taking inspiration from instruments of astronomy, the magnificent Newton mirror fosters thoughts of voyage and discovery. Fashioned from hand-polished glass rods that elegantly stretch out to meet four rounded glass corners, diffusing the light for a gentle luminous glow. Vintage glamour with a nod to the stars.
